## INTRODUCTION

---

The rapid and large increase in the pulp wood industry appealed to the author, in presenting this book called the Culler's Friend, Cubic Tables to all those interested in the manufacture, measuring or handling pulp wood, especially cullers. Anything therefore, that will tend to lighten the tasks and economize the time of those engaged in it must prove acceptable. The following pages have been prepared with great care and a vast amount of labor and are absolutely correct. They comprise all the various calculations concerning pulp wood manufactured into logs eight, twelve and sixteen feet in length, from four inches to twenty-four inches in diameter with half inches included, from one piece to ten thousand pieces, for each diameter giving the cubical contents in feet and inches for the number of logs required.

## INTRODUCTION

---

Vu l'augmentation prodigieuse dans le commerce du bois de pulpe, depuis quelques années, et qui semble devenir avant longtemps une des premières industries du pays, l'auteur, confiant dans son expérience de plus de quarante ans dans le commerce du bois, a pensé de présenter aux intéressés un livre intitulé "L'Ami du Mesureur", et ainsi leur fournir le moyen d'économiser un temps si précieux dans les opérations forestières. Ce livre renferme dans son ensemble tous les divers calculs cubiques relatifs au bois de pulpe, manufacturé en longueur de huit, douze et seize pieds; de quatre pouces à vingt quatre pouces de diamètre, y compris les demi-pouces; donnant aussi le contenu en pieds et en pouces cubiques de un morceau à dix mille morceaux.
